FISHING CLUB

LAKE TAHOE is producing large numbers of Mackinaw. The last two years catching "Macks" was very difficult because of the daily high blowing winds so with the calm days, the catch is on. The **AMERICAN RIVER** is still very good for shad. The best results are late afternoon near the Sunrise Bridge. At **LAKE AMADOR** the trout are holding at the deeper cool water. A catfish plant was made last week. Last month a Carp Sparring and Bow Fishing Tournament was very successful. **LAKE CAMANCHE** is still producing trout at the deep water area near the dam. Catfish fishing is good using the old standards baits, chicken livers, night crawlers, and frozen fish scraps. At **LAKE PARDEE** kokanee are near the surface and unusual methods are the key to success. Catfish are being found at the usual hot spots. There will be three major tournaments throughout the summer. Big kokanee are being caught by some at **NEW MELONES**. The fishing is best high in the water column. At **RED, SILVER, AND CAPLES LAKES** the fishing is very slow. The trout fishing has been fair to good at **RANCHO SECO LAKE**. The **SAN JAQUIN DELTA** is producing some largemouth bass, but striper fishing has been slow.
